

MINIMUM ADVERTISED PRICE AND INTERNET RESELLING POLICY

Updated March 2, 2020

Gaia Herbs Professional Solutions, Inc., (Gaia) has unilaterally adopted this Minimum Advertised Price Policy (MAP Policy), which shall apply to distributors and retailers, including catalogue and internet retailers, (collectively, "Resellers") located in the U. S. who resell Gaia products to end users via the internet. This MAP Policy shall apply to new products and those products provided on the attached Gaia Herbs MAP Listing. The minimum advertised price for such products shall not be more than 20% off of the Suggested Retail Price (SRP) for each product as provided on Gaia's Price List in effect at that time.

Gaia Herbs Professional Solutions, Inc. has implemented and enforced a Minimum Advertised Price ("MAP") policy on all Gaia Herbs products. This policy is effective April 1, 2019.

- 1) For the purposes of this policy, an advertised price is a price published in any form, including but not limited to mobile devices, e-mail, social media sites, display advertising in any form, search results, product detail pages, e-commerce shopping carts, category pages, loyalty program pages, automatic shipment and subscription program pages, and other customer-facing content.
- 2) The minimum advertised price for all Gaia Herbs products at which any retailer can legitimately advertise a Gaia Herbs branded product in any form shall be set forth in the attached Price List.
- 3) Gaia Herbs has the right to immediately cease supplying any of its products to any reseller who is in breach of this Gaia Herbs MAP policy either directly or through our distribution network.
- 4) The MAP policy does not establish maximum advertised prices. All resellers may offer Gaia Herbs products at any price in excess of the minimum advertised price established for such product.
- 5) Gaia Herbs reserves the right to engage in cooperative promotions and other short-term promotions with respect to certain products and retailers. In such events, Gaia Herbs reserves the right to modify or suspend the MAP policy on a limited basis with respect to such products and pre-approved promotions.

6) The terms of this MAP policy are confidential and should not be disclosed to other parties. This MAP policy has been established and will be enforced unilaterally by Gaia Herbs to help ensure brand integrity, and may be adjusted at any time by Gaia Herbs in its sole discretion.

7) Gaia Herbs reserves the right to prohibit all online sales of a specific product or line of Gaia Herbs products by internet resellers, unless authorized in writing by Gaia Herbs. Gaia Herbs explicitly prohibits online sales of all SKUs within Gaia Herbs Hemp products line by internet resellers without written authorization. If Gaia Herbs determines that a Reseller has not taken any action that does not uphold this policy (after written notification and a compliance period of 7 days) in which to correct advertised price, which may include advertising¹ Gaia Product at a price of more than 20% off of the SRP, Gaia Herbs will cancel and refuse all orders from that Reseller for all products, at its discretion, for a period of time or indefinitely.

Gaia Herbs reserves the right to require its customers to sign a Gaia Herbs reseller agreement.

¹ “Advertising” means all online visual or audio media, including websites. In-store displays, point-of-sale signs, bar codes or similar marks on products or product packaging which merely state the price are not considered advertising for purposes of this MAP Policy. In that regard, this MAP Policy does not apply to the actual sales price on any “check-out page” of any Reseller’s website or related internet site (typically the page at which the end user finally purchases the product). This MAP Policy does apply to any other page(s) on the Reseller’s website.
