

Nutritional Fundamentals for Health Inc. Internet Reseller Policy

Starting April 1, 2013 NFH has updated its Internet Reseller Policy. The new policy is being implemented to assist in protecting practitioners and their dispensaries. We are asking all account holders who have an online dispensary to keep pricing within 10% of our Suggested Patient Pricing. These prices are located on our price list next to the wholesale pricing. Keeping in line with our retail policies, anyone ordering a product online must be verified as either being a patient of the practitioner or having been giving a prescription for the product by a health care practitioner. Products cannot be advertised as a sale or promotional product.

As many patients/clients are looking for products on-line, this policy is designed to protect our valued clients and ensure that patients are being properly monitored while using NFH products. If you currently have products available on-line and do not meet the above outlined criteria please make any changes necessary to comply. NFH maintains the right to terminate sales to clients who do not comply with our policies. Should you have any questions or concerns regarding our internet policies please don't hesitate to contact us at 1-866-510-3123 or info@nfh.ca.
